**HOLSTEIN FRIESIAN HEIFER**

Details at time of sale

Lots 19 to 37 are the property of R & C Bates, Marton, Whitegate. Part of an ongoing dispersal, at the point in which they decided to begin their dispersal process the herd were averaging a very credible 8241kg 4.49% 3.69%. The Procross crossbreeding program allows all attributes from each breed to shine, the Swedish Reds for calving ease, fertility with excellent udder health. Montbeliarde's for high quality protein, good feet and legs as well as adapted body condition that ensures high fertility and Holsteins are renowned for high milk production and udder conformation. These heifers genuinely have all these great features. Milked twice a day, cubicle house in the winter and high herd health status. All have been wormed and vaccinated for both BVD and LEPTO, have not been vaccinated for IBR with no evidence within the herd, and come highly recommended.
